

We're helping parents and  
communities grow kids that thrive.

A parent is  
a child's first  
and best  
teacher!

## Neighborhoods for Learning

The First 5 Years impact a lifetime. 90% of a child's brain growth occurs by age five, laying the building blocks for future learning. When infants and toddlers get what their growing brains need, they become healthy kids who are confident, empathetic, and ready for school and life. We invite you to connect with your local NFL and its high quality, affordable resources that help expectant parents, young children and families thrive.
